

Excel Assignment #3

Directions: You are to create a simple budget for one month. List the categories you see here and put them into a spreadsheet format. Your goal is to use Excel to find your Savings for the month. Make sure to read the directions below after you find Savings.

Income:

Allowance- \$50

Mowing Lawns- \$20

Expenses:

Eating- \$15

Clothes- \$30

Movies- \$5

Savings:

???

Now create a pie chart showing just the expenses category. Remember to highlight the "Expenses" section first and then go to "Insert". You may choose any pie chart. Give the Pie Chart a title of "Monthly Expenses."
